Dear Mr. Friedman:

On behalf of the staff of the Child Life Program of Nemours/Alfred I. duPont Hospital for Children, our patients, and their families, thank you for your very generous contribution of the following items to Hospital: IPODs with gift cards, Sony PSP, Nintendo DS, DVD players, Leap Pads, including all games. Your gifts will help us offer more choices for children who are at duPont for treatment and make their hospital stay a little more enjoyable.

The role of the Child Life therapist is to help children cope and adjust to being in the hospital and try to make the experience as positive as possible. Play is children's work and we try to provide opportunities for the patients to do normal activities, time to concentrate on being children rather than sick children. Whether it is in the Child Life Activity Center or bedside; toys, games, books, and activities provide opportunities for our patients to have fun and express their feelings.

It is truly amazing to all of us at Nemours how fortunate we are to have the caring support of the community. If we may be of assistance, please contact the Child Life Department (302.651.4848) or the Nemours Partnership for Children's Health (302.444.9116).

Again, our heartfelt thanks.

Sincerely,

Beth Carlough, CCLS
Sr. Child Life Specialist
